ABOUT FENEX

At FENEX, we provide custom and oversized architectural, impact, and specialty windows and glazing. Our products can be designed to fit any project while being impact-rated to provide unmatched safety and security. Our custom windows and skylights provide unique beauty, clarity and aesthetic for your home or business.

We have traveled the world to find the best materials and processes from some of the biggest glass manufacturers, taking this knowledge and technology to create products and services that are unlike anything else available today. The partnerships we've

created in the process allow us to increase our reach and capabilities exponentially, making us an excellent source of custom oversized glass.

Our engineers will work to meet your design needs and expectations with the only limitation being your creativity. We can provide custom shapes, sizes or curves to give your job a unique look and feel while also meeting any other specialty requirements, knowing that look isn't everything. We test our products to the limit, beyond the standards of the industry to ensure you are getting products of the highest quality.
