

BOTTEGA VENETA

CURVED WINDOW SYSTEM

SUMMARY

FENEX provided beautiful curved windows for a renovation project for a high-end retailer in the Miami Design District, Bottega Veneta. The District is home to many flagship international luxury stores, art galleries, and award-winning restaurants. FENEX worked with the design team to create this unique one-of-a-kind window system, that was impact-rated, but also met the clients aesthetic desires. It is an honor to be showcased on the same retail block as fashion Icons Gucci & Rick Owens. We intend on pushing the window industry to find the limits of shape, size, & contour.

SOLUTION

SOLUTION - Custom aluminum curved oversized flood windows (FL20700.2), insulated system with curve "S" shape glass

SPECIALIZATION - FL Product Approved Oversized Impact (D-Impact Rated)

SIZE - 8'-0" W x 16'-6" H window
